Welcome

Dear Colleagues,

Welcome to the 11th Annual Brisbane Cancer Conference. With the establishment of Health Translation Queensland as an NHMRC Research and Translation Centre, this meeting is an opportunity to draw together cancer researchers in Brisbane and Queensland to advance collaborative efforts in cancer research. The meeting comprises plenary lectures and workshops on recent scientific, technological, nursing and medical developments in the diagnosis and treatment of malignant disease.

On Thursday 28th November, the meeting will start 8.00am with Breast, Lung and Prostate Cancer, Survivorship, and Immunotherapy symposia running from 8 – 11pm in the morning. The symposia will be followed by satellite symposia and plenary lectures. Subsequently there will be workshops from 4:30 – 6:30pm.

The symposium Gala dinner will be held on Thursday evening offering the opportunity to socialise with colleagues and patient advocates and consumers from other institutions, the city and Queensland.

The all-day session on Friday 29th November will include plenary lectures followed by tumour-site specific workshops in the morning and afternoon. A key session will be lectures by Queensland oncology researchers that have contributed to global advances in our understanding of the epidemiology, molecular biology, and treatment of malignant disease.

Over 1,000 delegates registered for the event last year demonstrating the value of a truly multi-disciplinary annual Queensland Translational Cancer Conference in Brisbane.

This conference is made possible through the support of the PA Research Foundation, our many sponsors, the time and effort of the chairs who put the workshops together as well as Therese and the QUT Cancer and Ageing Research Program (CARP) team.

Best wishes for what should be an enjoyable and fulfilling two days.

Yours sincerely,

Professor Ken O'Byrne

Consultant Medical Oncologist

Princess Alexandra Hospital, Translational Research Institute and Queensland University of Technology
